Subject: Public Land Statistics - Wildland and Prescribed Fire DD: 11/01/96

As part of the fiscal year closing, it is time to consolidate information for the fire tables in the Public Land Statistics Report. We need your assistance in preparing Table 2-9, Prescribed Fire Projects, and in the timely submission of Individual Fire Reports, Form DI-1202, for all wildfires occurring prior to October 1, 1996.

Please submit the following information on your fiscal year 1996 prescribed fire projects to Tina Vorbeck (FA-213) by November 1, 1996:

State	*Number of Projects	**Total Acres	Benefitting Program	Approx. Acres by Benefitting Program
-------	------------------------	------------------	------------------------	--

*Prescribed fire projects reported should be identified in the following categories: (1) planned and executed by the Bureau and, (2) approved by the Bureau but conducted by another agency (please specify) on Bureau-administered lands.

**Acres reported should be "black acres" (acres actually burned) rather than acres planned or influenced by the project.

In addition to the prescribed fire information, fire reports for all wildfires occurring prior to October 1, 1996 must be entered into the Shared Applications Computer System (SACS) by October 18, 1996. At that time, the computer report of wildfire statistics for fiscal year 1996 will be generated. Any reports not entered into the system by that date will result in an inaccurate PLS report.

If you require assistance in completing these reports or have questions concerning this IB, please contact Tina Vorbeck at NTFC, (208) 387-5417.

LESTER K. ROSENKRANCE
